Pahrump, NV 89060

**Receipt of Quality Assurance Audit Report #NWRPO-2008-01 Response**

Dear Darrell:

I received your response to the NWRPO internal audit report #NWRPO-2008-01 conducted March 17-19, 2008. All of the findings and observations were addressed adequately, and I am positive that all issues will be resolved over the next couple of months. The last requirement in the audit process as stated in Section 5.3.8 of QAP-18.1, *Audits and Surveillance*, is a follow-up audit or surveillance to verify that all deficiencies have been corrected. I will coordinate schedules with Levi so that we are able to hopefully combine a field surveillance with the follow-up surveillance.

Regards,

A handwritten signature in black ink, appearing to read "Kathy Gilmore".

Kathy Gilmore

Quality Assurance Officer
