

NYE County NWRPO -Technical Data Report

RID No.	Transmitter	Org.	Receiver	Org.	Key word1	Title/Description
7378	Sampson	NWRPO	QARC	Nye	24PB	NWRPO Geotechnical Lab Data for NC-EWDP-24PB
Doc. Date	11/14/2007	General Doc. Type	QA Program Doc	Keyword2	hydrometer data	
Entry Date	1/3/2008	Detailed Doc. Type	Lab Data	Keyword3	Atterberg data	
Data Originator Preparer	Jim Foster					
Title of Data	NWRPO Geotechnical Lab Data for NC-EWDP-24PB					
Description of Data	<p>Seven files on a CD as follows:</p> <ol style="list-style-type: none"> 1) Atterberg Limits report for NC-EWDP-24PB titled "24PB Atterberg Data.pdf" 2) Electrical Conductivity (EC) report for NC-EWDP-24PB titled "24PB EC Data.pdf" 3) Gravimetric Water Content (GWC) used in EC calculations report titled "24PB GWC Data (EC).pdf" 4) GWC not used in EC calculations report titled "24PB GWC Data (OTHER).pdf" 5)Hydrometer Particle Size Analysis report titled "24PB Hydrometer Data.pdf" 6)Wet Sieve Particle Size Analysis report titled "24PB Wet Sieve Data.pdf" 7) Report of GWC data censoring titled "24PB GWC Censoring Report.pdf" 					
Data Collection Method	All tests were performed in accordance with RID 6142, "Procedures for the NWRPO Rock Hydrologic Testing Laboratory".					
Data Location(s)	NWRPO Rock Hydrologic Testing Laboratory, Pahrump, NV.					
Data Collection Period(s)	2/16/06 to 5/03/06					
Data Source(s)	Instrumentation and equipment listed in RID 6142, "Procedures for the NWRPO Rock Hydrologic Testing Laboratory" and the NWRPO Rock Hydrologic Testing Laboratory Microsoft Access (97-2003 compatible) database "Laboratory v3.10.mdb", RID 7375.					
Data Censoring	Certain tests on certain samples were censored. The test(s), sample numbers, and justifications for censoring are listed in the censoring report titled "24PB GWC Censoring Report.pdf", which is file number 7 on this CD.					
Data Processing	N/A					
Data Limitations	Testing results were entered by hand on to datasheets, and then transcribed into the database. A second person then printed proofing sheets from the database and compared each value in the database to the handwritten entry on the datasheet. Any discrepancies were corrected in the database. Reports were generated from the database in text-searchable *.pdf documents. Any data censored and the justifications for its censoring are outlined in the censoring report(s) listed in the Description block of this form. It is important to note that, in the interests of transparency, censored data appear in these reports.					
Governing QA Docs.	Procedures for the NWRPO Rock Hydrologic Testing Laboratory (RID 6142)					
Frequency of Transmittal	Once per borehole					
Direct Questions About Data To-	NWRPO QA Records Center
