

# NYE County NWRPO -Technical Data Report

RID No.	Transmitter	Org.	Receiver	Org.	Key word1	Title/Description
4395	Shettel	GMII	Qarc	NYE	4PA/4PB	Sulfur Isotopic Analyses Reported By Geochron Laboratories On June 30, 2000 To Gmii For Ewdp-4pa/4pb And Ponderosa Dairy Water Samples (hydrogeochemistry)
Doc. Date	6/30/2000	General Doc. Type	QA PROGRAM DOC	Keyword2	H2O	
Entry Date	8/22/2001	Detailed Doc. Type	DATA	Keyword3	ANALYSES	
Data Originator Preparer	C. Colonero					
Title of Data	Sulfur Isotopic Analyses Reported by Geochron Laboratories on June 30, 2000 to GMII for EWDP-4PA/4PB and Ponderosa Dairy water samples (hydrogeochemistry)					
Description of Data	An MS Excel file (GL3339.xls) contains site names, sampling dates, sulfur stable isotopic ratio analyses (SIRA) and any duplicates, laboratory sample IDs, GMII sample IDs, sampling depths, and pump depths.					
Data Collection Method	Unfiltered water samples were collected from discharge line of down hole pump (Bennett pump for EWDP wells, diary well has electric pump) after at least 3 well bore volumes of fluid discharged; samples collected in 1L high density polyethylene (HDPE) bottles which were labeled in the field and shipped to laboratory from the office.					
Data Location(s)	Nye County Early Warning Drilling Program well sites NC-EWDP-04pa and -04pb, and a Ponderosa Diary well, at specified depths.					
Data Collection Period(s)	3/2/00 to 4/25/00					
Data Source(s)	Original laboratory analyses in RID 3339 and GMII field geochemistry notebook.					
Data Censuring	None					
Data Processing	Laboratory performed data reduction; data compiled into spreadsheet for distribution by D. L. Shettel of GMII. Note that laboratory labeled sample I000302-04pa is actually I000302-04pb (correctly labeled on spreadsheet).					
Data Limitations	Samples are from screened intervals of piezometer wells, or the slotted PVC casing of a production well. Standard error on SIRA measurements is +/- 0.1 per mil (o/oo), except for hydrogen.					
Governing QA Docs.	TP-8.1					
Frequency of Transmittal	As required by PI					
Direct Questions About Data To-	Reina Downing
