

NYE County NWRPO -Technical Data Report

RID No.	Transmitter	Org.	Receiver	Org.	Key word1	Title/Description
5485	Federwisch	Geophysical Logging	QARC	Nye	16P	NC-EWDP-16P Phase IV Open Hole Geophysical Log 1/10/03 to 1/11/03, and Geophysical Log Header Check Sheet
Doc. Date	1/11/2003	General Doc. Type	QA Program Doc	Keyword2	EWDP IV	
Entry Date	2/10/2003	Detailed Doc. Type	Geophysical Log	Keyword3	log	
Data Originator Preparer	Raymond Federwisch					
Title of Data	NC-EWDP-16P Phase IV Open Hole Geophysical Log 1/10/03 to 1/11/03					
Description of Data	Hard and electronic copies of geophysical data from EWDP IV well 16P in open hole 0 ft. to 2121 ft. Log ascii files: 16PopenHole.las and 16PopenHoleREP.las containing deviation, magnetics, moisture, density, gamma, resistivity, fluid temp., fluid resistivity, and a repeat section.					
Data Collection Method	Geophysical logging data of well 16P in open hole					
Data Location(s)	NC-EWDP-16P					
Data Collection Period(s)	1/10/03 to 1/11/03					
Data Source(s)	GLS Logging System SN 1010 and tools Poly SN 2189, Caliper SN 2460, Deviation SN 2240. See Scientific Notebook #156 (RID 5523 for field notes.					
Data Censoring	Density data (0-2121 ft) and Caliper data (1300-2121 ft) were censored during interpretation of Phase IV geophysical logs. Refer to table 4.7-1 of the Phase IV drilling report for an explanation.					
Data Processing	Refer to ASTM D-5753-95. Hard copy is filtered; digital data is unfiltered.					
Data Limitations	<p>Logs run in open hole. Log ascii standard (.las) files require well log software for analysis. There is no spectral gamma or sonic data due to borehole conditions. Caliper log was shifted down 2.35 feet to match casing depth. E-Logs were merged from runs 1 (high resistivity configuration) and run 4 (low resistivity configuration) at 788 feet. Well bridged at 788 feet on 01/11/03.</p> <p>Inaccurate computer time stamps of 1/11/2002 on both electronic files, "16PopenHole.las" and "16PopenHoleREP.las". Accurate dates of survey on all hardcopies of data and scientific notebook entries.</p>					
Governing QA Docs.	WP 6, TP-11.0					
Frequency of Transmittal	As required by PI
